

# Outdoor Adventures Summer Camp

## An Outdoor Camp for children ages 5-9

### June 26th—September 1st

Come explore the acres of wetlands right behind our property while building outdoor survival skills and taking part in activities such as wild edibles foraging, picking berries and making jam, building fire, making shelter, building navigation skills, going on hikes, clamming and oyster gathering, beachcombing, camp cooking, and much more! Children get the opportunity to make candles and soap, make tools from wood and stone, and explore their creativity through crafts and music. We take weekly field trips to local parks, beaches, lakes, and the Puget Sound for further exploration of the Pacific Northwest's many natural resources, habitats, and beauty. We also take part in other field trips including indoor rock climbing, the Children's Museum, among others. Swimming is a part of our weekly fun!

#### *Themed Weeks will include:*

Arts & Crafts, music, exploration free play, group games, field trips, and onsite guests!
